## Project Description

Outdoor recreation plays an incredibly important role to the health and vitality of communities and the lives of millions of citizens and visitors nationwide each year. Countless recreation opportunities provided across our 154 national forests and 20 national grasslands contributes 13 billion dollars to the U.S. economy in visitor spending each year. We need to do a better job communicating the importance of U.S. Forest Service outdoor recreation to the millions of visitors to our national forests and grasslands.
